Authenticity of the Financial News' Editorial.

Stating That British Trade Would Be Ruined By Free Silver Policy in This Country.

(Continued from page 1.)

WASHINGTON, D. C., October 14.—Early in the campaign a number of newspapers, among them The Enquirer and the Washington Post, copied an article from the London Financial News, which said, among other things, that if the United States were to adopt a silver basis, British trade would be ruined within a year. A short time after The Enquirer published a facsimile of this article, the accuracy of which has been denied by the Republican press, the Washington Post admitted to investigate the matter on its own account, and the following correspondence on the subject shows that the facsimile was correct in every detail. This correspondence will appear in tomorrow morning's Post:

WASHINGTON, D. C., September 22, 1896.
 "MAYOR DUBOIS'S PRESS CUTTING.—Dear Sir: Perhaps you are aware by this time that there is being circulated in this country an alleged extract from the London Financial News of April 30, 1894, the same purporting to be a through your bureau, of which the Post is patron. Inclosed will be found a facsimile of the same as it is appearing in the newspapers. Will you be kind enough to look into the matter and advise us as to whether or not the editorial or communication appeared in the London Financial News, and, if so, at what time? It has been asserted that the editorial, if such it was, did not appear on the date credited in your clipping. An early reply will oblige,
 EDWARD WILKINS
 "Editor The Post."

This reply reached the Post to day: "DUBOIS'S PRESS CUTTING.—Dear Sir: The London Financial News, of April 30, 1894, upon receiving a similar clipping from Chicago at once compared it with the file kept at the British Museum, and having discovered that it was a forgery, it has been destroyed. It is quite in order. Since then have been able to obtain the loan of a copy of the Financial News of April 30, 1894, and it lies here at the disposal of anyone who chooses to call and examine it. This finally disposes of the assertion that no article appeared in that journal. Other articles copied from the Financial News during 1894 have been sent over from here, and doubtless will be published. The actual paper lies here, and can be seen by anyone. I am, dear sir, your obedient servant,
 "W. DUBOIS,
 "To the Editor Washington Post, Washington, D. C., U. S. A."

Silver Production.

One of the main arguments of the monometallists is that the production of silver has increased during the last few years that it cannot be coined without producing an inflated currency of money. This is so constantly repeated that the answer must also be repeatedly given.

The first fact to be borne in mind is that the annual supply of gold and silver has very little effect upon the total stock of the two metals in the world. If we consumed the annual products, the annual production would be a very important consideration. But gold and silver can neither be eaten nor worn out. It does get worn down by abrasion, and some of it is lost in ships at sea, but the great bulk of the gold and silver taken out of the ground since the commencement of human activity is still in existence.

SILVER OR GOLD.

Better than either is a healthy liver. If the liver is O. K. the man is O. K. His blood is kept pure, his digestion perfect, and he can enjoy life and act intelligently and patiently upon the question of the day. You all know what to take. You have known it for years. It is Simmons Liver Regulator—

For years you and your fathers have found it of sterling worth. It is and always has been put out only by J. H. Zoulin & Co. Take note but the genuine. It has the Red Z on the front of the wrapper, and nothing else is the same, and nothing so good.

tenor. All the authorities on this subject agree that there is about four billion of each of the two metals now in existence as money. All the rest has been used for other purposes, in the arts and manufactures, except such as has been lost. The highest amount ever produced in one year only equaled three per cent of the total amount in the world. The production of that year, therefore, did not materially affect the total supply. The same may be said of any given ten years. It is conceivable that if all the wheat that has been grown since the days of the Pharaohs in Egypt was still on hand it would make much difference whether we made a large crop or small one, or none at all during the present year, or during the next five or ten years.

The production of silver during the first half of the present century was twice the amount of gold produced during the same period. The amount of gold produced in the third quarter of this century was twice the amount of silver produced during the same period. But during all that time both the metals were coined without limit, and each maintained its value with relation to the other. When the production of silver was twice as large as that of gold, the value of gold was still fifteen and a half times that of silver. This is a demonstration of the fact that the commercial value of each metal follows its coinage value. When silver is coined without limit, it is worth as many dollars as it can be coined into; 371 grains of pure silver is then worth in a gold dollar. Nor does this depend on international limitations. France maintained the parity of the two metals throughout the world from 1803 until

1870 by her policy of the unlimited coinage of both at the ratio of fifteen and a half to one.

New discoveries of the precious metals have always been hailed as blessings to mankind. The world's treasure-house has been enriched. They prey upon the distresses of mankind. They do not want the debtor to pay his debt; they want him to forget the security of a great security. Paralytic make money by the sale of pledges left with them by spendthrifts than they do by the extortionate rates of interest they demand upon their loans.

A new theory in the treatment of coughs, lung and bronchial affections has been advanced by the manufacturers of Dr. Bull's Pine-Tree-Honey. It is truly a wonderful remedy. All doctors sell it on a positive guarantee.

BEWELEYVILLE.

Jack Frost—Farmers Bay—Health Good School Progress—Protracted Meeting Closed—Other News.

Jack Frost did good work Saturday night.

General health much improved. The clear, cool weather tones us up wonderfully.

Farmers bay with full work, wheat sowing, gathering corn and etc.

The merchants have started off in a lively way with new goods, just as if Bryan was already elected.

Miss Carrie Owen, of Glendene, is visiting Miss Blanche Jolly.

Miss Mary Paul did not arrive at home Saturday night as was expected.

The Republican club organized Saturday, Oct. 10th, met Oct. 17th with speakers from abroad. T. J. Jolly was elected President of the club.

Miss Ida Schmitz is again a pleasant visitor of her friends at this place.

Little Ruth Fountain, from Arkansas, was the guest of her grand father, T. J. Jolly, visiting Bertha Cane and Minnie Smith last Tuesday evening.

Miss Lola Nunnally continues to visit friends in our community.

Misses Leah Payer, Annie Johnson and

Maggie Paul and Mamma Fletcher Blanford, Arthur Walker and Moore and Harlan attended the Teachers' Association at Webster, Oct. 17th.

Mrs. Z. T. Smith has been ill for some time, but is slowly improving.

Our school is not over come with heat these days, but otherwise it is in a prosperous condition.

Miss Sam Pate and Jones Mercer visited young ladies here Saturday and Sunday.

The protracted meeting held in the Baptist church during the past week has been one of interest. Bro Rutledge preached excellent sermons, and both he and the pastor, Bro. Jerome Lewis, are zealous, faithful christian workers. The meeting closed Sunday night.

Foster Before You Cast Your Vote

For Lewis.

Congressman Lewis voted for the \$500,000 gold bond issue, and is a candidate upon a platform which, if successful, would insure the continuation of this scheme of enriching eastern bankers at the expense of the people. He is the candidate of a party whose principles are against the farmer and the laboring man and in favor of the money kings of the country. He is in favor of the existing gold standard, and is responsible for the present hard times, and offers nothing in the way of relief from your present straitened circumstances.

Foster over these matters before you cast your vote for John W. Lewis—Hendford Herald.

Bro. W. B. Hayward and wife of Elizabethtown, were here last week visiting relatives.

Dr. Will C. Strother, of Rochester, Ky., was the guest of Mr. and Mrs. A. W. Clark, a few days last week.

Miss Kate McElroy, of Cecilia, who is teaching music here, visited her parents last week for a day or so.

In the home of the Clark family, of Elizabethtown, were the guests of Miss Lydia Clarkson last Saturday and Sunday.

Rev. Moody, of the Baptist Theological seminary has accepted the call of the church here and filled the pulpit here Sunday. Rev. Goodell, the former pastor, has accepted a call to a church in Alabama.

Stands at the Head.

Aug. J. Bregel, the leading druggist of Shreveport, La., says: Dr. King's New Discovery is the only thing that cures my cough, and it is the best I have.

J. F. Campbell, merchant of Safford, Ala., writes: "Dr. King's New Discovery is all that is claimed for it; it saves me, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits."

Dr. King's New Discovery is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottle of A. R. Fisher's Drug Store.

Charley Campbell worked his road Thursday. Charley is a good owner. The traveling public may rest assured that his part of the road will always be found in a good condition.

Some of the young people of our neighborhood organized a McKinley club Wednesday night at Mr. Newberry's and will meet once or twice a week to perfect their voices that they may cheer McKinley on his way up Salt river.

Public speaking seems to have come to a head in this vicinity. The speakers on both sides have either said all they deem necessary at this place or they are engaged at other places where there are no greater good accomplished.

It looks like the goldbugs have been the wrong call by the, calling Bryan and his followers Anarchists. Her Most, the leader of that grade of cattle says the sure way to starve people into fighting humor is to vote for McKinley and retain the gold standard.

The effect of a gold standard seems to have reached to the poultry yard. The female part of that feathered tribe seem to be on a strike, and the future resumption of the egg manufacture is looked far from to with much interest.
